### Uncle Bob's BBQ on the Lake, voted Best Lakeside BBQ House-Texas 2017 by Lux Magazine.

This family owned establishment serves up BBQ the old fashioned way, cooked low and slow on our wood burning pit by Uncle Bob himself. Uncle Bob is the pit master behind the succulent BBQ and the many award winning BBQ sauces manufactured and bottled on location and sold nationwide.

Bob and Terri Blalock founded Uncle Bob's Sauces in 2009 and Uncle Bob's BBQ on the Lake in 2010. We strive to provide the highest quality products, created by caring hands that embrace the lives of our customers. We give people a reason to get together and build strong relationships all while maintaining the integrity and principles by which our family business was founded.

Take a boat ride over for lunch and park lakeside in one of the courtesy boat slips available. Pull your boat up for a beautiful view along with an amazing meal or take a scenic Sunday drive down our country roads to reach our location. Join the motorcycle clubs that spend the day cruising out for some sliced brisket, signature pulled pork or our Georgia Juice Chicken. While you are there, taste our homemade potato salad and slaw. Don't forget to grab some banana pudding before heading out.

Terri is the overall business manager. She heads up production, sales and marketing and is on the front line of all that goes on at Uncle Bob's. She takes pride in working with future bride and grooms, as Uncle Bob's has a large presence in the wedding catering in our area. You will find us out on the weekends at the beautiful million dollar barn wedding venues in our area, helping to make couples wedding days extra special. Building our dream one day at a time!
